Baldanzi & Novelli

### Fiancate

Fiancata a terra disponibile con profondità standard (34 cm) o maggiorata (44 cm). Pannelli laterali in due altezze con rivestimento in tessuto, in pelle o in essenze naturali e con telaio strutturale in acciaio a vista. Nella versione su barra le fiancate intermedie sono tamponate con pannelli laterali che si appoggiano sulla trave, mentre quelle iniziali possono anche arrivare fino a terra. L'installazione può avvenire su piano orizzontale, inclinato o su gradoni, in file diritte o in curva.

### Poggia-braccio

Poggia-braccio riportato in massello di legno verniciato, coordinato alle fiancate, oppure interamente imbottito e rivestito in tessuto o pelle.

### Sides

Floor-level side available in standard depth (34 cm) or increased depth (44 cm). Two-height side panels with fabric, leather or natural wood covering, with visible structural steel frame. In the beam-mounted version the intermediate sides are filled using side panels that rest on the beam, whereas the starting sides can reach the ground. Installation on horizontal and inclined floors or on steps, in straight or curved rows.

### Armrest

Painted solid wood added armrest, coordinated with the sides, or fully padded and covered with fabric or leather.

### Sedile e schienale

Sedile con dispositivo a gravità che ne consente il ribaltamento con movimento auto-frenante. Schienale, alto o basso, posizionabile con due diverse angolazioni per favorire sempre una perfetta visuale, sia in platea che in galleria.

### Seat and backrest

A gravity device allows the seat to tip up with a cushioned movement. High or low backrest available with inclination at two different angles to enable a perfect view at all times, both in stalls or in galleries.

### Personalizzazione

Poltrona qualificata da una serie di accessori funzionali, che consentono di personalizzare ogni intervento con soluzioni specifiche. Caratterizzata da un design nitido e lineare, esprime forti requisiti ergonomici di comfort.

### Customisation

Armchair qualified by a series of functional accessories that enable each installation to be customised with specific solutions. Characterised by a straightforward design, this armchair provides high levels of ergonomic comfort and safety.

## Tipologie

Prodotta sia con fiancata a terra che su barra, la poltrona si adatta a qualsiasi progetto (è disponibile anche un sistema accessorio per l'amovibilità delle poltrone). La versione su barra è disponibile anche con piedi anti-ribaltamento senza fissaggio a pavimento. La fiancata può essere completamente imbottita o in legno verniciato.

## Versions

Produced both with floor-length side and on beam, the armchair is suitable for any project (an accessory system to move the armchairs is also available). The beam-mounted version is also available with anti-tilt feet that do not require floor fixing. The side can be fully padded or in painted wood.
